SUMMARY

Results-driven medical and laboratory device professional with 3+ years of experience spanning Field Service Engineering and Marketing within the medical and laboratory device industry, pursuing a **Medical Device Product Specialist** role. Strong technical knowledge of medical and laboratory equipment, with hands-on experience in installation, preventive and corrective maintenance, troubleshooting, calibration, technical support, and customer training. Experienced in translating technical product features into clear, customer-focused solutions and supporting product marketing, sales activities, customer relationship management, market analysis, and business development. Demonstrated ability to support product adoption through technical consultation, product demonstrations, customer training, and post-sales support.

WORK EXPERIENCES

Field Service Engineer and Sales & Marketing Specialist – PT. New Module International

Surabaya, East Java — June 2023 – Present

- Provided technical consultation and product recommendations to 100+ customers based on customer requirements, supporting product selection and customer decision-making.
- Provided post-sales technical support and troubleshooting for 60+ medical/laboratory devices across 80+ customer sites, supporting customer satisfaction and long-term relationships.
- Developed and implemented marketing strategies that contributed to the acquisition of 80+ new customers based on market conditions, customer needs, and competitive analysis to support business growth.
- Collaborated with customers and internal teams to identify product requirements, provide technical insights, and translate field feedback into product improvement and sales-support opportunities.

Barista Supervisor – Kopi Rempong

Sidoarjo, East Java — January 2022 - August 2022

- Led daily café operations and supervised team performance to ensure efficient service delivery and consistent customer satisfaction.
- Applied product knowledge and customer feedback to recommend suitable products and improve the overall customer experience.
- Resolved customer concerns through effective communication and problem-solving while maintaining service quality.

Barista – Common Grounds Graha Famili

Surabaya, East Java — August 2021 - December 2021

- Maintained strong product knowledge of coffee varieties, preparation methods, and brand-specific products to communicate product benefits effectively.
- Addressed customer concerns and inquiries through clear communication, problem-solving, and service recovery.

Engineer Intern – Dharmais Cancer Hospital

West Jakarta, Jakarta — January 2020 - February 2020

- Supported maintenance and hardware operation of medical equipment, including ultrasound systems, X-ray systems, LINAC, and ventilators.
- Communicated with clinical users to identify equipment issues and support troubleshooting and problem resolution.
- Supported troubleshooting and problem-solving activities for medical equipment and assisted in preparing technical and analytical reports.

Freelance Content Writer

Surabaya, East Java — February 2018 - September 2022

- Utilized strong writing, editing, and proofreading skills to produce engaging and error-free content.
- Coordinated with marketing and design teams to illustrate articles and develop graphics.
